

# Travel Add-ons

## Travelling with BCREA Mobile

You will always have access to your device when travelling internationally!

Tiered roaming solutions will automatically be added to all BCREA Mobile accounts that allow for immediate access to your device upon arrival, rather than adding a travel package over the phone or online through your BCREA Mobile account manager.

**Before you leave**, understand the costs for use of your device when travelling. Costs increase as voice, text and/or data are used and you move between the tiers outlined below.

**Should you wish to avoid incurring charges**, ensure the appropriate activities are turned off or monitored while you are travelling. The costs that appear on your bill will be an accurate reflection of your use; as a result, no credits for unexpected bills will be offered by either BCREA Mobile or Rogers.

## Travel Costs by Zone

When reading the charts below, note that the next tier applies in full when your use reaches that level. For example, 1.01 GB of data use in the US (Zone 1) is charged at \$100.
